

The following Professional Dental Fraternities constitute the American Dental Interfraternity Council:

Alpha Omega - Founded 1907

Delta Sigma Delta -
Founded 1882

Psi Omega - Founded 1892

Xi Psi Phi - Founded 1889

These fraternities have over one hundred and forty undergraduate chapters on the campuses of the dental schools in the country and around the world.

They have over 150 active alumni chapters throughout the world. Eighty-five percent of the active men and women in the dental profession have fraternity affiliation.

For further information please visit the American Dental Interfraternity Council website at www.adifc.org

What is a Professional Dental Fraternity?

The Professional Dental Fraternity is a Greek letter organization of individuals, bonded together by ritual, which limits its membership to dental graduates and students enrolled and satisfactorily pursuing courses in an accredited school of dentistry. It is not an honorary fraternity or recognition society.

What are our aims?

The professional Dental Fraternity aims to promote the high ideals and standards of its profession; to advance the professional knowledge and welfare of its members; and to provide a medium through which it's members, with a common interest, can develop everlasting friendship

HOW DOES THIS WORK?

A professional Dental Fraternity follows a pattern in the selection and training of its members that:

1. Stresses the importance of high professional ethics and practices.
2. Conducts an extensive program of speakers, tours, forums, and research projects that are designed to broaden the professional knowledge of its members.
3. Grants scholarships and awards that encourage professional proficiency and provide a service to the school and community.
4. Works to complement the curriculum of the school and helps to provide the cultural and social graces to round out the whole man or women.
5. Fosters athletic and social functions that stimulate the development of life long friendships.
